

# Nothing's gonna change

♪ 123

The sun is shining, but I feel wrong  
cause I've got a headache, all day long

I am restless, all the time  
can't find my passion, I don't know why

## Bridge

Nothing's gonna change, if I don't know who I am

## REF:

Everytime I see my face in the mirror, who's that girl  
All the time I'm watching myself, I wonder, who I am

I wanna feel better, I wanna feel good  
I should not be thinking, about things to do

Wanna let it flow, like water flows  
then things will change by themselves, I know
