

What's wrong with me

J 120

When I was a child, I was afraid of the night
There was a pain inside of me that I couldn't explain

I could never be alone in my room
I could never be alone at home
The reason was, I was afraid of the night
I'm scared, I cry

I'm a 30 year old woman now
And I know, why I was scared when I was a child
I dont understand why these things happened to me
But now I know, I'm strong enough to face it

I slept in my bed, which was standing next to the wall
I could never turn of the light at night

Who will protect me
Is there anyone here
who will help me when I cry, I cry
